- The '**OTG Ring**' represents a significant advancement in contactless payment technology. Designed and made in India, this wearable ring is set to transform the way people make payments and engage in various financial transactions.
- The '**OTG Ring**' is tailored for **National Common Mobility Card (NCMC)** customers, opening up a world of possibilities for convenient and secure transactions. NCMC is a critical component of India's digital payments ecosystem.

iPhone 15 Series To Feature ISRO-Certified GPS Technology

- Apple's **iPhone 15 Pro** and **iPhone 15 Pro Max** are the company's latest flagship smartphones, and they come with a number of notable upgrades, including a new brushed titanium frame, a powerful **A16 Bionic chip**, and a more advanced camera system. However, one of the most significant changes under the hood is the integration of precision dual-frequency **GPS, including support for NavIC, the Indian Regional Navigation Satellite System (IRNSS)**.
- NavIC is a regional navigation satellite system developed by the **Indian Space Research Organisation (ISRO)**. It consists of seven satellites in geostationary and inclined geosynchronous orbits, providing coverage over India and a region extending 1,500 kilometers beyond its borders.
- The integration of NavIC into the iPhone 15 Pro series is a significant development for both Indian and global users. It offers a number of potential benefits, including improved accuracy and reliability, more accurate location-based services, increased resilience to jamming and spoofing attacks, and greater independence from foreign GNSS systems.

Nipah Virus In News

- India's southern state of **Kerala** has once again found itself grappling with the ominous threat of the **Nipah virus**, a rare and deadly brain-damaging viral disease. In response to the deaths of two individuals from this infection, the state government has taken swift action by shutting down schools and offices and declaring containment zones in certain areas.
- The Nipah virus, abbreviated as NiV, emerged onto the global stage in **1999** during an alarming epidemic in Malaysia and Singapore. This outbreak left a trail of

devastation, with nearly 300 human cases and over 100 fatalities. Since the initial outbreak, Nipah virus cases have surfaced almost annually in various parts of Asia, primarily in Bangladesh and India. This virus is classified as **zoonotic**, which means it initially spreads between animals and humans. The primary animal host reservoir for NiV is the fruit bat, also known as the flying fox.

Hyderabad Liberation Day On 17 September

- Officially known as **Kalyana-Karnataka Liberation Day** (Vimochana Diwas), Hyderabad-Karnataka Liberation Day is an important annual observance celebrated across various districts of Karnataka, India. This event, held on the **17th of September** each year, commemorates the integration of Hyderabad into India in 1948.
- The historical significance of this day dates back to **September 17, 1948**, when the formerly Nizam-ruled Hyderabad state became a part of the Indian union, marking a pivotal moment in India's post-independence history.
- In **2022**, the Government of Telangana made a decision to broaden the significance of this day by designating it as "Telangana National Integration Day" or "**Telangana Jathiya Samaikyatha Vajrotsavam**." This move demonstrates a commitment to fostering unity and integration among the diverse communities in the state, emphasizing the importance of India's diverse cultural fabric.

Maharashtra Issues Notification On Name Change Of Aurangabad, Osmanabad

- The **Maharashtra** government has issued an official notification regarding the renaming of Aurangabad and Osmanabad districts to **Chhatrapati Sambhajinagar** and **Dharashiv**, respectively. The decision to change these names at various levels, including sub-division, village, taluka, and district, has been finalized. This notification has been issued by the Revenue Department of the state.
- **Aurangabad**, a historic city in Maharashtra, derived its name from the Mughal emperor Aurangzeb. Similarly, **Osmanabad** was named after a 20th-century ruler of the princely state of Hyderabad. The decision to rename 'Aurangabad' as 'Sambhajinagar' carries historical and cultural significance.
- **Chhatrapati Sambhaji**, the eldest son of the renowned warrior king Chhatrapati Shivaji Maharaj, was the second ruler of the Maratha state established by his father. His execution on Aurangzeb's orders in 1689 remains a significant chapter in Maratha history.

Santiniketan On UNESCO World Heritage List

- **Santiniketan**, the cultural and educational hub founded by Nobel laureate Rabindranath Tagore, has earned a coveted spot on **UNESCO's World Heritage List**. The decision to include Santiniketan in the prestigious list was made during the 45th session of the **World Heritage Committee, held in Saudi Arabia**, reaffirming its importance on the global stage.
- Santiniketan, originally an ashram established by Rabindranath Tagore's father, Maharshi Debendranath Tagore, served as a spiritual retreat. It welcomed individuals,

irrespective of their caste and creed, to meditate before the one Supreme God. This inclusive ethos laid the foundation for what would become a cultural and educational powerhouse.

- With this latest addition, India now ranks **sixth on the World Heritage List**, further highlighting the nation's commitment to safeguarding its cultural and natural treasures. The inclusion of Santiniketan reinforces India's status as a custodian of world heritage. Santiniketan now stands as **India's 41st World Heritage site**, solidifying its place in the nation's rich cultural heritage.

Hoysala Temples Now India's 42nd UNESCO's World Heritage Site

- The Sacred Ensembles of the **Hoysala, the famed Hoysala temples of Belur, Halebid and Somananthpura in Karnataka** have been added to the United Nations Educational, Scientific and Cultural Organization (UNESCO) World Heritage list. This inclusion marks the **42nd UNESCO World Heritage Site** in India and comes just a day after Rabindranath Tagore's Santiniketan also received this distinguished recognition.
- The sacred ensembles of the Hoysalas, constructed during the 12th and 13th centuries are represented here by the three components of Belur, Halebid, and Somnathapura. While the Hoysala temples maintain a fundamental Dravidian morphology, they exhibit substantial influences from the Bhumija style prevalent in Central India, the Nagara traditions of northern and western India, and the Karnataka Dravida modes favoured by the KalyaniChalukyas.

Old Parliament Building To Be Called As 'SamvidhanSadan'

- As the proceedings of the Indian Parliament shift to a new, state-of-the-art building, Prime Minister NarendraModi announced the new name for the old Parliament building: "**SamvidhanSadan**" or "Constitution House."
- This iconic structure, designed by British architects **Sir Edwin Lutyens** and **Herbert Baker** and completed in **1927**, has witnessed some of the most pivotal moments in Indian history, including the drafting and passing of India's constitution.
- In a poignant moment, Prime Minister Modi proposed the renaming of the old Parliament building during a special ceremony. He emphasized the **importance of preserving the legacy** and significance of this historic edifice. This renaming not only pays homage to the past but also connects future generations to the great leaders who once convened here in the Constituent Assembly.

Cabinet Approves Women Reservation Bill Granting 33% Seats To Women In Parliament

- The Union Cabinet took a historic step by approving the **Women Reservation Bill**, The Bill mandates that one-third of the seats in the Lok Sabha and state assemblies will be reserved for women candidates. This provision aims to promote gender equality and increase women's representation in India's legislative bodies.
- To ensure fairness and equitable distribution, the reserved seats will be rotated after each general election. This mechanism prevents the monopolization of reserved seats by specific political parties or individuals.
- The Bill also proposes sub-reservation within the 33 percent quota for Scheduled Castes (SCs), Scheduled Tribes (STs), and Anglo-Indians. This sub-reservation recognizes the importance of addressing intersectional inequalities and promoting diversity in political representation.

- The Indian Lighthouse Festival in Goa, which commenced on **September 23 and extends to September 25**, marks a significant milestone in the journey to resurrect these historic structures and celebrate their cultural and historical significance.
- The festival kicked off with a grand inauguration ceremony at the iconic Fort Aguada Lighthouse in Panjim, Goa. Union Minister Sarbananda Sonowal, who spearheads this initiative, inaugurated the event. The Fort Aguada Lighthouse, with its rich history and stunning vistas, provided the perfect backdrop for this transformative endeavor.

India Gets Its First Green Hydrogen-Run Bus That Emits Just Water

- The **Indian Oil Corporation (IOC)** achieved a significant milestone in India's transition to clean energy by unveiling the nation's **first green hydrogen-powered bus**. This groundbreaking initiative marks a crucial step towards reducing the nation's dependency on fossil fuels while promoting eco-friendly transportation alternatives.
- IOC is leading the charge in harnessing the power of green hydrogen, produced through the **electrolysis of water** using electricity from renewable sources. This green hydrogen will be utilized to fuel two buses, which are slated for trial runs in the national capital region.
- Hydrogen is hailed as the fuel of the future and holds immense potential in aiding India's decarbonization efforts. Globally, the demand for hydrogen is expected to surge, with estimates ranging from four to seven times current levels, reaching **500-800 tonnes by 2050**. Domestically, **India's demand for hydrogen** is projected to quadruple, from the current 6 tonnes to 25-28 tonnes by 2050.

'2018' Is India's Official Entry In Oscars 2024

- The **Film Federation of India** has announced that the Malayalam movie "**2018: Everyone is a Hero**," based on the Kerala floods, will represent India as its official entry at the **Academy Awards or Oscars in 2024**.
- The film, directed by **Jude Anthany Joseph**, delves into the harrowing tales of survival during the devastating floods that struck the state. Its selection was attributed to its poignant portrayal of climate change issues and the societal misconceptions about development.

- “2018: Everyone is a Hero” boasts a multi-talented ensemble cast including Tovino Thomas, Kunchakoboban, Tanvi Ram, and AparnaBalamurali, who contributed significantly to the film’s success. Its selection among fierce competition highlights its potential to leave a lasting impact on the global stage.

India Slips Four Spots To 56th Position In 2023 World Talent Ranking

- The **2023 World Talent Ranking**, released by the **International Institute for Management Development (IMD)** on September 27th, has brought both good news and areas of concern for India. While the nation has shown improvements in infrastructure, it has **slipped four spots** to the **56th position** (Out of 64 economies) compared to its 52nd position in the 2022 ranking.
- The IMD World Talent Ranking considers various factors, including the **quality of life**, statutory minimum wage, and primary and secondary education. India performs reasonably well in terms of future readiness, **ranking 29th globally**. However, the report points out a critical issue: India’s **educational system ranks** second to last (**63rd**) in quality.
- In the **IMD World Talent Ranking for 2023**, Switzerland secured the top position, followed by Luxembourg in second place, and Iceland, Belgium, and the Netherlands rounding out the top five.

UK Rejoins EU's Horizon Science Research Programme

- After a two-year post-Brexit standoff regarding science funding, the **United Kingdom** has decided to rejoin the European Union's Horizon science research programme. This move is seen as a significant development in bilateral relations between the **UK and the EU**, following the resolution of a trade dispute seven months prior.
- In addition to rejoining Horizon, the UK has also chosen to associate with the European earth observation programme, Copernicus. However, the UK will not participate in the EU's Euratom nuclear research scheme. Instead, the UK has decided to pursue a domestic fusion energy strategy.
- One of the key points of negotiation was how much the UK needed to pay to rejoin Horizon, considering it had missed two years of the seven-year program. Under the agreement, the UK will not be required to pay for the period it was frozen out. Moreover, a "clawback" mechanism has been established to compensate the UK if British scientists receive significantly less funding than the UK government contributes.

**African Union Becomes Permanent Member Of G20 Under India's Presidency**

- During the opening session of the **two-day G20 Summit**, the **African Union (AU)** received an official invitation to join the Group of 20 largest economies (G20) as a permanent member. This momentous declaration was made by Indian Prime Minister Narendra Modi, marking a significant stride towards a more inclusive and equitable global economic landscape.
- Following Prime Minister Modi's announcement, Union of Comoros President and AU Chairperson **Azali Assoumani** assumed his seat as a full member of the G20. This marked a moment of pride and triumph for the African Union, as it secured its place among the world's most influential economies.
- The African Union, comprising **55 member states** from across the African continent, wields substantial influence in regional and global affairs. Its permanent membership in the G20 reflects the increasing recognition of Africa's economic and geopolitical importance.

- This announcement was made during discussions centered on exploring new trade routes, specifically the **Agartala-Akhaura rail link project**, which promises to bolster connectivity and trade ties between the two nations.
- Once **Agartala-Akhaura rail link project** is operational, it will mark the seventh rail link connecting India and Bangladesh, further enhancing connectivity and trade opportunities. This development underscores the commitment to strengthening infrastructural ties.

NASA's MOXIE Successfully Generates Oxygen On Mars

- The Mars Oxygen In-Situ Resource Utilization Experiment, commonly referred to as MOXIE, has achieved a remarkable feat by producing a substantial 122 grams of oxygen, a quantity sufficient for sustaining a small dog's breathing for approximately 10 hours.. This compact device, roughly the **size of a microwave**, possesses an extraordinary capability: it can convert the tenuous and inhospitable Martian atmosphere into vital, life-sustaining oxygen.

- Since the moment **Percy**, the Mars Perseverance rover, touched down on the Martian surface, MOXIE has been operating flawlessly. To date, it has generated a remarkable 122 grams of oxygen, averaging an impressive rate of 12 grams per hour. This achievement is more than double NASA's initial goal for MOXIE, and the oxygen produced boasts an impressive purity level of 98% or better.

India-Canada Relations Strained Over Allegations Of Sikh Separatist Involvement

- Canada's prime minister, **Justin Trudeau**, announced that there was "credible" information linking Indian government agents to the murder of a Sikh separatist leader in British Columbia. The announcement marks a significant worsening of bilateral ties.
- Recently, there was a tragic incident where **Hardeep Singh Nijjar** was fatally shot outside a Sikh temple in Surrey, British Columbia, Canada. Nijjar had been advocating for the creation of an independent Sikh nation called Khalistan within India's Punjab state. He was wanted by Indian authorities and was officially labeled as a "terrorist" in July 2020. Nijjar held a prominent position as the leader of the Khalistan Tiger Force, an organization that India has designated as a terrorist group.
- This incident has given rise to discussions on social media regarding potential connections between Indian intelligence agencies and these overseas deaths, including those that occurred on Canadian soil.

UK PM Rishi Sunak Delays Ban On New Petrol And Diesel Cars By 5 Years In Net Zero Reset

- **British Prime Minister Rishi Sunak** has unveiled a shift in the UK's strategy for achieving its **Net Zero climate action targets**. This strategy includes a significant delay of five years in implementing the proposed ban on petrol and diesel cars, pushing the deadline to 2035.
- Despite this delay, Sunak emphasized that the UK remains steadfast in its commitment to reduce carbon emissions and achieve its **Net Zero target by 2050**. The core objective is unchanged, but the approach is evolving to be more practical, proportionate, and realistic, particularly in light of the ongoing cost-of-living crisis.
- In addition to delaying the ban on petrol and diesel cars, Sunak's plan includes: The ban on installing oil and LPG boilers, as well as new coal heating, for off-gas-grid homes by 2035 and Exemption for Fossil Fuel Boilers including gas, in 2035, allowing a transition to low-carbon alternatives. Policies that compelled landlords to upgrade property energy efficiency will also be scrapped.

Invitation To U.S. President Biden For Republic Day Celebration

- Indian **Prime Minister Narendra Modi** extended an invitation to **U.S. President Joe Biden** to be the chief guest at **India's Republic Day** celebrations on January 26 next year. U.S. Ambassador Eric Garcetti confirmed the invitation, stating that it is under consideration by the U.S. government. President Biden is also scheduled to visit India in 2024 for the **Quad Summit**, and efforts are being made to align the summit with his visit.
- This marks the third time the Modi government has invited a U.S. President to be the chief guest at the Republic Day parade. In 2015, President Barack Obama was the first American President to attend Republic Day as the chief guest. President Donald Trump declined the invitation for January 2019 due to scheduling conflicts in the U.S. Congress.

Republican-Led House Panel Initiates Biden Impeachment Inquiry

- The Republican-controlled U.S. House of Representatives has embarked on an impeachment inquiry against Democratic **President Joe Biden**. Spearheaded by Speaker **Kevin McCarthy**, this move signifies an attempt to score political points at the onset of the election campaign cycle.
- The backdrop for this impeachment inquiry is the history of impeachments involving former **President Donald Trump**. The Democrats impeached Trump twice, first over allegations of abuse of power and obstruction of Congress linked to his interactions with Ukraine, and later for “incitement of insurrection” following the January 6 attack on the U.S. Capitol. Kevin McCarthy’s pursuit of Biden’s impeachment may be seen as an effort to counterbalance the scales, potentially influencing voter support for Democrats in upcoming elections.
- The primary focus of the impeachment inquiry centers on Hunter Biden’s business dealings and whether President Biden benefited from them during his tenure as Vice President under Barack Obama. The House Oversight Committee’s August memorandum alleged that the Biden family received over \$20 million from foreign sources.

Pakistan Announces General Elections In January 2024

- The **Election Commission of Pakistan (ECP)** has officially declared that the **general elections in Pakistan** will be held in the last week of January 2024. This announcement follows a series of delays in the election timeline. Initially slated for October of the same year, the elections were postponed due to the early exit of the Shehbaz Sharif government and the necessity for a comprehensive census.
- The preliminary list of constituencies is set to be made public on September 27. Subsequently, after considering complaints and feedback on the preliminary lists, the final list of constituencies will be released on November 30. This meticulous process ensures transparency and fairness in constituency delineation.
- The elections will span a **54-day period**, culminating in the voting week at the **end of January 2024**. This extended timeline allows for comprehensive preparations and the smooth execution of the electoral process.

Singapore Overtakes Hong Kong As World’s Freest Economy

- In a significant shift, Singapore has surpassed Hong Kong to claim the title of the **world’s freest economy**, marking the end of Hong Kong’s 53-year reign at the top. This shift is according to a report released by the Canadian think tank Fraser Institute.
- The **Economic Freedom of the World Index**, which has been tracking economic freedom since 1970, placed Hong Kong in second place for the first time. The report highlights how Hong Kong’s recent shift is closely linked to civil and political freedom. The imposition of a national security law in 2020, which criminalizes secession and sedition, has raised concerns about the city’s autonomy.
- **Top 5 Freest Economies are:**

Rank	Country
1	Singapore
2	Hong Kong
3	Switzerland

- An international group of scientists, including botanists from the **University of Oxford's Botanic Garden**, has issued a dire call to action to save the iconic **genus Rafflesia**. These remarkable plants, known for their massive, foul-smelling flowers, are under severe threat due to habitat destruction and lack of protection. A recent study has shed light on the precarious status of Rafflesia, urging immediate conservation efforts to prevent their extinction.
- Of the **42 known species of Rafflesia**, **25 are classified as critically endangered and 15 are endangered**. Shockingly, more than two-thirds of these species receive no protection from current conservation strategies. This relevance comes from the first-ever global assessment of the threats faced by these remarkable plants.

I2U2 Group Of India, Israel, UAE & US Announces Joint Space Venture

- The **I2U2 group** comprising **India, Israel, the United Arab Emirates (UAE), and the United States** has unveiled an ambitious joint space venture. This collaborative initiative aims to create a groundbreaking space-based tool with wide-ranging applications for policymakers, institutions, and entrepreneurs.
- The announcement follows India's recent successful lunar mission, marking a significant milestone for the quartet's space exploration efforts. Against the backdrop of India's triumphant lunar soft-landing, the I2U2 group, consisting of four nations deeply engaged in space exploration, has come together to pioneer a unique space-based tool.
- The core of this project revolves around harnessing the space-based observation data and capabilities possessed by the four I2U2 partner nations. The objective is to leverage this data to create a distinctive tool with applications spanning multiple domains.

The Zagorochoria, Nestled On Mount Pindos In Epirus Added To UNESCO's World Heritage List

- A cluster of traditional, picturesque villages on Mount Pindos in Epirus, known as the **Zagorochoria** (or villages of Zagori), was recently inducted onto **UNESCO's World Heritage List**. This momentous decision was made during the 45th session of the World Heritage Committee in Riyadh, Saudi Arabia, marking a significant milestone in **Greece's** cultural heritage preservation efforts.
- Located in a remote rural landscape in northwestern Greece, Zagorochoria consists of **small stone villages** that sprawl along the western slopes of the northern part of the **Pindus mountain range**. A network of stone-arched bridges, stone-cobbled paths, and stone staircases seamlessly connects these charming villages, forming a system that **once served as a political and social unit**, linking the communities of the Voidomatis River basin.
- These traditional villages are typically organized around a central square, featuring ancient plane trees and surrounded by sacred forests meticulously maintained by local communities. What makes these villages truly remarkable is their architecture, perfectly adapted to the rugged mountain topography.

- This monumental temple, constructed outside of India, is poised to become the **second-largest Hindu temple in the world, following the majestic Angkor Wat in Cambodia**. With its intricate design, spiritual significance and commitment to sustainability, the Swaminarayan Akshardham stands as an evident to human dedication, tradition and artistry.
- Measuring an impressive **255ft x 345ft x 191ft**, the **New Jersey Akshardham temple** is possibly **the second largest temple globally**, only surpassed by **Cambodia's Angkor Wat**. The temple complex boasts **one main shrine, 12 sub-shrines, nine shikhars (spire-like structures) and nine pyramidal shikhars**, with the largest elliptical dome of traditional stone architecture ever constructed.

The Next Pandemic: Disease X Looms As A Potential Global Threat

- Health experts from around the world are sounding the alarm about a potential global pandemic referred to as **"Disease X,"** which could surpass the lethality of COVID-19 and claim over 50 million lives. They warn that COVID-19 might be just a precursor to more devastating pandemics in the future.
- Dame Kate Bingham, who chaired the **UK's Vaccine Taskforce**, issued a grim warning about the severity of Disease X. She emphasized that the world has been fortunate that COVID-19 was not more lethal and cautioned that the next pandemic could be exponentially more deadly.
- In response to the threat of Disease X, UK scientists have initiated vaccine development efforts targeting this unidentified but potentially deadly pathogen. More than 200 scientists are involved in this research, conducted at the high-security Porton Down laboratory complex in Wiltshire.

Afghani Currency Has Emerged As The Best Performing Currency In The Current Quarter

- **The Afghani**, the currency of conflict-ridden Afghanistan, has taken the financial world by surprise by emerging as the **best-performing currency of the September quarter** in 2023. As of September 26th, the Afghani was trading at approximately 78.25 against the US dollar.
- This unexpected surge is attributed to a combination of factors, including massive dollar inflow in the form of humanitarian aid and currency control measures imposed by the ruling Taliban. This influx of foreign currency has played a pivotal role in stabilizing the Afghan economy.
- Another factor bolstering the Afghani is **Afghanistan's vast natural resources**, including significant reserves of **lithium**. The Taliban has expressed its intent to tap into these resources to attract foreign investments. Additionally, Afghanistan's inclusion under China's Belt and Road Initiative in May 2023 has further enhanced the prospects of increased foreign investment, particularly for infrastructure development projects.

Google's Celebrates Its 25th Birthday

- **Google**, the search engine giant, is commemorating its **25th birthday with a special Google Doodle**.
- Throughout its 25-year journey, Google's mission has remained steadfast: to organize the world's information and ensure its universal accessibility and utility. This mission has driven the company's innovations, from search algorithms to the development of products like Google Maps, Gmail, and Google Drive.
- In the late 1990s, Sergey Brin and Larry Page shared a common dream: to make the World Wide Web more accessible and user-friendly. From the confines of their dorm rooms, Brin and Page worked tirelessly on a prototype for a superior search engine. As their project gained momentum, they relocated to Google's first official workspace – a rented garage. On September 27, 1998, Google Inc. was formally founded.
